PETERSON & BROTHERS, No. 306 Chestout-st., Philadelphia, and they will receive immediate attention.

practical bearing on the comfort, health and safety of our brave soldders?

No questions can interest the homes of the country at this hour more than these. The volunteers already in the field represent a hundred thousand loving households! Never in the history of Society went forth an army so precious. The health and lives, the comfort, and security, of these noble conceripts must not be risked beyond what is absolutely necessary. The women of our country must not permit ignorance, apathy, recallessness, thoughtlessness, to have any part in the destiny of this army. We must not wait to learn by bitter experience, what the Crimean war taught England and France. Our intelligence must anticipate and provide against all dangers not essentially fortnotious.

Money, of course, will be required to carry out the objects of this association. The multication and primiting of classifiers the adver-THE LEMMON SLAVE CASE. THE FULL HISTORY

LETTERS FROM THE SEAT OF WAR.—The CAMPAIGN of the NEW-YORK REGIMENTS and a complete account of the VOYAGE and MARCH from New-York to Weshington, written by GEORGE WILKES, in WILKES SPIRIT OF THE TIMES, NOW READY.

THE TRIBUNE for 1861.

PROSPECTUS.

THE WEEKLY TRIBUNE is now in #s XXIst Volume THE TRIBUNE will be, as it has been, a Political Journal though not exclusively so. But, while it gives prominence and emphasis to the discussion and cloudation of the great issue of the day, it sinks none of the characteristics of a Business and Family Newspaper. During the past year THE TRIBUNE has been obliged to devote quite a large proportion of its space to Politics, but we hope to be able to limit the space devoted to Political discussion, and devote more of our columns to subjects of less intense, but more ahiding, interest. Among these, we mean to pay especial attention to mean to pay especial attention to

mean to pay especial strention to

The whole subject of Education, both Popular and General,
will be discussed in our columns throughout the year 1861, and
we hope to enlist in that discussion some of the profoundest
thinkers and the ablest instructors in our country. It is at once
our hope and our resolve that the cause of Education shall receive an impetus from the exertions of THE TRIBUNE in its
behalf during the year 1861. II.-AGRICULTURE.

II.—AGRICULTURE.

We have been compelled to restrict our elucidations of this great interest throughout 1900, and shall endeavor to atome therefor in 1661. Whatever discovery, deduction, demonstration is alculated to render the reward of labor devoted to cultivation ore ample or more certain, shall receive prompt and full atten III .- MANUFACTURES, &c.

We hall every invention or enterprise whereby American Capital and Labor are attracted to and advantageously employed in any department of Manufacturing or Mechanical Industry as a real contribution to the Public Weal, insuring ampler, steadier, more convenient, more remunerating markets to the Farmer, with fuller employment and better wages to the Laborer. The Progress of Mining, Iron making, Steel-making, Cloth-weaving &c., &c., in our country, and the world, shall be watched and reported by us with an earnest and active sympathy.

IV .- FOREIGN AFFAIRS. We employ the best correspondents in London, Paris, Turin, Berlin, and other European capitals, to transmit us early and ac curate advices of the great changes there silently but certainly pre-paring. In spite of the pressure of Domestic Politics, our news from the Old World is now varied and supple; but we shall have to render it more perfect during the eventful year just before us V.—HOME NEWS.

We employ regular paid correspondents in California, at the Istimus of Darien, in the Rocky Mountain Gold Re-gion, and wherever else they seem requisite. From the more accessible portions of our own country, we derive our information mainly from the multifarious correspondents of the Associated Press, from our exchanges, and the occasional letters of intelligent friends. We aim to print the cheapest general newspaper, with the fullest and most authentic summary of use ful intelligence, that is anywhere afforded. Hoping to "make each day a critic on the last," and print a better and better paper from year to year, as our means are steadily enlarged through the generous cooperation of our many well-wishers, we solicit and shall labor to deserve a continuance of public favor.

TERMS.
